Acting Chief Secretary

To

H. Ward
Acting Revenue Commissioner &c
Sherwar Collector's Office
19th June 1854

Sir,

I have the honor to forward the accompanying Plan and Estimate framed by the Executive Engineer Mr. Wm and approved of by the Military Board communicated in their Secretary's letter No 2078 dated the 22nd March last for repairs to the Lunatic Asylum in the Cantonment Lahore. The Estimate amounts to Rupees 1693 of which sum the Villagers have already paid Rupees 537-10-0 and have signed an agreement binding themselves to pay a further sum of Rupees 152-7-3 in augmentation of which will make a total of Rupees 537-10-3 leaving a balance of Rupees 1115-5-9 to be defrayed by Government and for the expenditure of which I request you will obtain the sanction of Government

2nd The Tank supplies water for drinking to the inhabitants and Cattle of the Village and irrigates the following extent of land.

Government

	Rs.	a.	Rs.	a.	p.
Government in Other Tank Lands	134	37	84	4	0
Do. Do. Do.	25	15	109		
Do. Do. Do.	31	22	137		
Do. Do. Do.	1	11	5	4	0
Total	193	14	935	8	0

Assessment of

3rd Said Tank was repaired and completed by the Engineer Department in 1845 at a cost of Rupees 3376. mentioned in the Government letters noted in the margin a portion of which appears to have been contributed by the Villagers.

1. Do. Chief Secretary Revd. letter to the address of the Military Board No 161 dated 3rd Aug. 1841. Rupees 2500. -
2. Do. Do. Do. to the address of the Collector of Chingleput No 207 dated 7th July 1842. 876 -
Total Rs 3376 -

4th Copy of a certificate dated 11th March 1851 by the Executive Engineer certifying that none of the works in this work proposed have been executed & any portion of the repairs completed by this Department in 1845 is therein specified. -

5th The Acting 1st Assistant to the Steward who visited the Tank in March 1851 states that he then found it nearly dry and that the Ryots interested fear of their garden produce being destroyed by want of water. He reports that the Tank is gradually being filled by earth washed into it from the Canal above it and that if it be not repaired a great deal of the garden land is likely to be thrown out of cultivation. -

The Tank is said to have

40.

been originally constructed about three centuries ago by
one Achuthappa Nayaka and subsequently retaining
walls of stone are said to have been built by Sapuna
Mesapa a Ramanadar of one of the Nawaubs of
Sawanoor. The Villagers are reported to have made
some repairs at their own expence but in what year as
at what cost is not to be ascertained.—

The population of the Village
amounts to 182 souls and the Revenue to Rupees
Rs 78-3-. per annum.—

8° The repairs if sanctioned will
be executed under the orders of the Executive
Engineer.—

Rs 78-3

I have the honor, to be,
Sir,
Your most Obedient Servant
Acting Collector.

Acting Collector

The Acting Revenue Commissioner
C.D forwards a letter from the Acting Collector
of Dharwar requesting sanction to the expenditure
of Rs 1115. 5. 4. to be defrayed by Government for
repairs to the Tank at Huttee Mulloor in the
Ranibapoor Taloo-ka. —

2 The Estimate amounts to Rupees 1612
of which sum the Villagers have already paid
Rs 405. 3. - and have signed an agreement binding
themselves to pay a further sum of Rs 152. 7. 8
in August next —

3 States that the Acting Asst. Collr. Mr. Le-
-war visited the Tank in March 1853, when
he found it nearly dry, and that the Ryots en-
-tertained fears of their garden produce being
destroyed for want of water. He reports that
the Tank is gradually being filled by earth
washed into it from the land above it, and that
if it be not repaired a great deal of the garden
land is likely to be thrown out of cultivation.

Population of the Village 1862 Rent-roll Rs 4378. 3. per annum.

4 He also reports that the necessity of expenditure now to be
incurred is not entailed by the failure of the repairs compl-
-ed an expense of Rs 3376 in 1845.

No. 41.

From

M. J. M. Stewart Esqre

Acting 1st Assistant Collector

To

J. A. Rose Esquire

Acting Collector of Dharwar

Dharwar 24th July 1854.

Sir

I have the honor to request that you will solicit the sanction of Government to the Expenditure of Rs. 314 for the repairs to the tank at the Village of Kurgondree in the Hangul Talooka of this Collectorate, the estimate for which amounts to Rs. 796-1-7. of which sum the villagers have agreed to give Rs. 479-13-7. 2d Mr. Goldfinch on the 26th. September 1850 applied for Government sanction to expend Rs. 821-9-11 the villagers contributing Rs. 822-3-1 and this having been sanctioned by Government on the 26th October 1850, the work was proceeded

with

ed with and nearly completed in the
fair season of 1852/53, under the super-
intendence of Lieutenant Du Seakades
the [redacted]Assistant of Hangul. —

3rd The repairs of the tank appear
to have been executed in a very creditable
manner, the stone facing to the bund
having been renewed, so far as the
funds would admit, and the irrigation
sluices rebuilt. —

4th A further estimate of Rs 4485-4
for repairing the water course by which
the tank is fed, was made in 1851 and
out of this the Villagers contributed Rupees
249-0-2, and Mr Goldfinch applied
for the sanction of Government for the re-
mainder Rs 199-8-2, which was granted
on the 28th November 1851. —

5th These works stood the rains of
1852 very well, but the level of the water
in the tank having been heightened
there was some damage done in the rains
of 1853, and it appeared to me the quantity
of

cessary to raise the bund about 3 feet, and the stone facing to a similar extent.—

6th Some places where the bund has given way, have in the meantime been strengthened and restored at the expence of the Collectors and I have directed the Manufactuer to take care that the water does not collect in sufficient quantity to endanger the bund.—

7th The present estimate also includes an extension of the stone facing for about 400 yards along the channel by which the tank is fed as the force of the water had injured the earthen embankment very much. This was not included in the Estimate sanctioned in 1851.—

8th I have carefully examined these works, and am satisfied that the proposed repairs are requisite, and the present estimate having been framed as low as possible, I trust that it will meet with your approval and the sanction of Government.—

9th

sid with and nearly completed in the fair season of 1850/51, under the superintendence of Lyenkut Row Mahades the [redacted] Manlutdar of Hangul.—

3d. The repairs of the tank appear to have been executed in a very creditable manner, the stone facing to the bund having been renewed, as far as the funds would admit, and the irrigation sluices rebuilt.—

4th. A further estimate Rs. 446-5-4 for repairing the water course by which the tank is fed, was made in 1851 and out of this the Villagers contributed Rupees 249-0-2, and Mr. Goldfinch applied for the sanction of Government for the remainder Rs. 199-5-2, which was granted on the 28th November 1851.—

5th. These works stood the rains of 1852 very well, but the level of the water in the Tank having been heightened there was some damage done in the rains of 1853, and it appears to me to be quite necessary

cessary to raise the bund about 3 feet, and the stone facing to a similar extent.—

6th Some of the places where the bund has given way, have in the meantime been strengthened and repaired at the expence of the Villagers, and I have directed the Manlutdar to take care that the water does not collect in sufficient quantity to endanger the bund.—

7th The present estimate also includes an extension of the stone facing for about 400 yards along the channel by which the tank is fed, as the force of the water had injured the earthen embankment very much. This was not included in the Estimate sanctioned in 1851.—

8th I have carefully examined these works, and am satisfied that the proposed repairs are requisite, and the present estimate having been framed as low as possible, I trust that it will meet with your approval and the sanction of Government.—

9th

10th Besides this the tank was repaired in 1822/23 at an expense of Rs. A. P 364-2-. and in 1829/30 at an Expense of 383-. on which occasions the Villagers do not appear to have contributed any thing:-

9th The lands watered by the tank are as follow

	acres Gunt	Assessed at Rs-As-P
Government	216-16	590-12-"
Waste	24-17	44-4-"
Suro Enam	33-36	81-12-"
Joodee	1-7-	331-12-"
Service	4-29	9-"-"
Total	396-25	1057-8-"

11th The population of Kungoodree is 492 and the Revenue for last year Rupees 1180.-

12th I propose that the work should be entrusted to Swamy Row Ramajee the Manlutdar of Hangul.

I have the honor &c

No 1587 of 1854.

To

The Hon.ble

L. A. Wood Esqre

Collector of Dharwar

&c &c

Sir

W. Reeves Esqre

Acting Commissioner S.D.

Dharwar Division

6 September 1854.

I have the honor to submit a Plan and Estimate framed by the Executive Engineer Dr. Dr. and approved of by the Military Board as communicated in their Secretary's letter No 2082 dated the 7th March 1853 for repair of the Sank at Dat:unnal in the Gavergud Division of the Goolgoond Talooka. The Estimate amounts to Rupees four Rs 4111 ---- Three thousand one hundred and eleven and the Ryots have signed an agreement binding themselves to

to subscribe Rupees one thousand
six hundred and sixty six } Rs 1666. 8.-
and eight annas towards that sum
by four instalments within four and
a half months from the date upon
which they may be called for
for payment Viz. Rupees two thousand
four hundred and forty four } Rs 2444-8-0.
and eight annas to be defrayed by
Government, for the expenditure of
which I request you will obtain
the sanction of Government.—
2nd The Village is situated in
the Black plain on the road from
Hoobli to Hungund, and the cultiva-
tion being confined to Cotton, Jowaree
and other dry-crops the Sank is not
used for irrigation, but merely as
for the water for drinking to the in-
habitants and Cattle of the Village.
In ordinary seasons the Sank bee.
comes dry in three or four months

after

after the rains have ceased and
when it fails the Villagers have
to resort to a Nullah near Bel-
-wunkee about three miles from their
Village, and to drive their Cattle three
miles further to obtain a sufficient
supply.

3rd. The Sanction of Govern-
-ment to an outlay on the repair of
this Tank was applied for in the fol-
-lowing Collector Mr. Mansfield's letter
No. 1206 dated 5th. September 1846 (Page 35) and
although its repair was considered
desirable, it was not deemed of suf-
-ficient importance, at that time,
to be submitted for the Sanction of
the Supreme Government (See Govern-
-ment letter No. 3897 dated 8th. De-
-cember 1846).—

4th. The distance between the
Villages of Datumbal and Belwunkee
is stated by Mr. Mansfield in his

letter.

letter above quoted, and by the Executive Engineer in his Estimate to be one and a half miles, but the Map of the Gowlgoond Talooka prepared under the superintendence of Captain Whigate shews it to be three miles in a straight line.—

5th ½ The tank is said to have been once repaired in 1824/25 at a cost of Rupees 200, but no record of that expenditure is to be traced in this Office. It is not known when it was originally constructed, or whether or not any repairs were made to it since that time up to the time when the Village came under British Rule.—

6th ¼ The population of the Village of Datundal amounts to 844 Souls, and the Revenue for last year to Rupees 2308-10-2. Both would appear to have increased since the date of Mr Mansfield's letter above referred to.—

4th In conclusion I have to express my regret that so much delay has occurred in submitting this application. It was caused in some measure by the reluctance of the inhabitants to contribute a moiety of the Estimated amount towards repairs which is usual in cases of repairs to Banks like the one in question from which Government derive no returns for the outlay, but I have ascertained from the Deputy Collector who is in charge of this Subdivision that the Villagers are not in a condition to contribute more liberally, and under these circumstances I beg to recommend the work to the favourable consideration of Government.

I have the honor to be
Sir
Your most Obd. Servt.

Rept. to the Md. in Dy. Sec. Govt. Genl. with Mr. No. 43 of 15 Sept. 55

From R. J. M. Stewart Esquire
Actg. 1st Assistant Collector

To

J. B. Reid Esquire
Actg. Collector of Salt revenue

No. 43.

Dharwar 13th August 185x.

Sir,

I have the honor to solicit that you will solicit the sanction of Government to the expenditure of Rupees 524-4-3 being part of the estimated expense for repairing the tank at Nilgar village of Nellee-Kurnad in the Kumpta Talook, the estimate having agreed to contribute Rupees 526-3-6

2nd I cannot ascertain by whom the tank was originally constructed, nor if any repairs were made previous to the cession to our Government. Since that time the tank has not been repaired at the expense of Government.

3rd It has now become silted up and the embankment has diminished in size and the sluices are in very bad order and the estimate provides for the bed of the tank being dispersed at an expense of about 450 Rupees for constructing a stone facing Rupees 500 and for repairing the sluices Rupees 150 in all Rupees 1050-7-a.

to pay their promised contributions in kind
to Rupees 526-3-6 Five hundred and twenty
six annas three and six pies when called
upon to do so. —

A. M. Doe

No 11094-95

No. 3217 of 1854.

Extract from the Proceedings of Government in the General Department.

Extract para. 54 of a Despatch from the Hon'ble the Court of Directors (No. 1 in 1854) dated 19th April 1854.

With reference to Court's remarks as to the refusal of Government aid towards the repair of the Tanks at Benkunhope, forward a letter from the Collector of Dharwar which shewed that the Court's apprehensions had not been realized.—

54. It appears that notwithstanding the sacrifices made by the Villagers of B. to improve their Tanks they are still obliged at certain seasons to fetch their drinking water from a distance of six miles. We therefore think that this is a case in which the aid so frequently given under such circumstances might be rendered to the inhabitants in their efforts for obtaining a better supply of water.

Joint Revenue Commissioners Office - 21st Oct. 1854.

With reference to the foregoing Minute the acting Revenue Commissioners S.D. have the honor to report that the Collector of Dharwar in a communication dated 16th instant No 1859 states that the Villagers

Villagers of Kulgoud ob-
-ject to the Repairs being
Executed by the Engineer
Department from appre-
-hension that the work
would not be executed
in a substantial manner
by the Surveyor of the
Engineer Department B,
and that, in consequence
of the stone facing being
built too straight-worth-
-out sufficient slope, the
building would fall
in a year or two.- They
also complain of the
inferior quality of the
lime used by the Engineer
Department.- He further
states that the Villagers

Acting Rev. Commr

To H. M.

From

The acting Rev: Commr

No. 337 dy 21st Oct: 1854

In connection with the prosecution of the Collector of Chunar's Estimate for the Repairs to the Fort of Rutgoond maybe executed by this Department

R. D. No. 6379

The Collr of Thana reports with reference to the Govt Sanction of 1211 Rupees, on acct of Village Contribution amounting to Rs 400, for repairs to a Bund at Kulsond in the Kode Mahl upon an Estimate framed by the Executive Engineer to whose Departmt it was intended that the work should be entrusted, that the Villagers decline to pay their promised Contributions if the work is to be entrusted to the superintendence of the Engineer Departmt.

They state in their Petition that they agreed to contribute the amount on the understanding that the work was to be executed under the superintendence of the Mamlatdar of the Talooka, and that if this condition be complied with they would be willing not only to pay their Contributions according to the agreements passed by them but that they would assist with labour also.

Under these circumstances I have to recommend the Permission of Govt to the work being undertaken by the Officers of this Departmt and executed in accordance with the Plan & Estimate framed by the Executive Engineer which I have obtained from that Officer, who has the Permission of the Superintending Engineer, to transfer the execution of the work to this Departmt.

2. Mr Reeves in submitting the above observed:-

Mr Rose would have done well to explain why the "Villagers object to the execution of the work by the "Engineers Departmt".

3. The above Papers having been returned to Mr Reeves for information on the point adverted to by him, he now replies that Mr Rose states that the Villagers of Kulsond object to the repairs being executed by the Engineer Departmt from apprehensions that the work would not be executed in a substantial manner by the Surveyor of the Engineer Departmt, and that, in consequence of the stone facing being built too straight and without sufficient slope,

Actg 1st Assist Collector

To

The Collector of Chittagong

Cheerkote 6th December 1854

Sir,

I have the honor to report that the inhabitants of the village of Gelunggee in the Cheklas Khan's division of the Zemindary of Cox, agreed to subscribe Rupees 296 which was the amount required to repair the clinic of the Gelunggee Tank, but having since examined the Tank more extensive repairs were required, and the Sahakkung has prepared an estimate for the sum of Rupees 633, six hundred and sixty, of which sum the villagers have agreed to contribute Rupees 330, three hundred and thirty-six. I have to request that you will solicit the sanction of Government to expend an equal sum.

2nd The villagers have already subscribed Rupees 296 and will pay up the remainder, Rupees 34 whenever called on.

3rd This estimate when the Tank was originally constructed in 1833 the sum of Rupees 800 was granted by Government for the repair of the Tank, and was expended by Baboo Sreenath Chowdhry Khan of Chittagong.

The irrigation and water sluices have since fallen into disrepair, and the bed of the tank has been much filled up by the accumulation of mud. The estimate which appears to be fairly and correctly framed provides for the necessary improvements in these particulars.—

5th Said tank irrigates lands as follows.—

	Acres Gors:	Rs As Ps
Government.—	172- 33.	253- 5- ..
Waste do.—	.. - ..	.. - .. - ..
Cure Inam.—	25- 12.	18- 14- ..

No. 278 of 1853.

Persian Gulf

H. Majesty's Ship

Subsidence of a Memorandum from Purshotum and Bhanoo Purshotum Mariners Subjects of Muscat Requesting Payment of the Custom duties of Abu-dhuggur to the Right Hon'ble the Governor in Council dated 12th December 22nd January 1853.

As the Custom duties were levied Government with a view of granting Compensation to those Merchant who suffered a loss on that account, after a due inquiry, efforts the Revenue Claim Commissioner. - We according to the order of Officer, presented to him documents & account books of the Custom duties, under Sub Pleas when a Memorandum No. 186 under date the 6th October 1852 was sent in the name of my father Purshotum Narrayen who was dead from the Officer, intimating that he claimed Compensation for Custom duties for which he represented, he had no Claim and that from the statement it was found that there were no proofs to establish that there were Custom duties at the above mentioned village before & had been granted in Inam & that Compensation not be paid to him & that his Claim was rejected. Therefore beg to observe that about 125 years have passed since the village has been granted in Inam and that it has been held from ancient times by predecessors & that as in the mean time this Country by a famine as incursions were made by the Arabs Kur the village was deserted the

3 Nov: 15th Feby 03. 1205

and other documents were mislaid.- Though we have
~~herewith~~ the account books for the year for which
~~the same were asked for~~ by the Tax Officer we beg to state
~~that~~ there are six troops to shew that there were
~~Custom~~ duties at the above village, before it was granted
in Jahageer.- We therefore beg to remark that how
can we prove that there were Custom duties & that
we are not bound to prove it.- after it was granted to
us we received the Custom duties on account of ~~our~~
Rakta according to the practice prevalent at Jahageer.-
We have presented the account books of ~~same~~ to the above
mentioned Officer ~~as~~ it is the duty of Government to enquire
to whether the Custom duties were levied at the said
village before.- As the village is a Nur Rakta, a Chaukidar
was employed by Government at it the duties due to the
Sirkal were paid, & we received only that portion of them,
which was due to the said village, which we think
may have been entered into the Government account
books, to which we beg Government to refer.- These
are the particulars of our case, which we have
represented to your Lordship in Council.- We pray that
your Lordship in Council after taking them into Consi
deration, will reverse the order of Mr. Rose, & pass
an order to pay me my Compensation due on account
of Custom duties Rakta & Gyerbab, for the latter
two no mention has been made in the above reply.-

a Gye station probably for the Customs of small items of Transit duties

a Gye station for the collection of Transit duties

TERRITORIAL DEPARTMENT.

Forwarded to the Salsette Commissioner

for Report (to be written below)

By order, &c.

Secretary to Government

Bombay Castle,
17 Feby 1853.

N. B.

As the Salsette Accompaniment to this reference has to be recorded in the Deputy Secretary's Department, the Secretary has been directed to enjoin that it be returned to him uninjured, with the required Report

1849 No 28

Dated 30th December 1853

At Tattara

In reply to the above Endorsement, the Assistant Commissioner begs to enclose the following report by his Assistant Captain Conner:-

No 935 dated 29th December 1853

Letter recorded in the Revenue Department on 4th January 1854 No 4 Letter from Assistant Captain Conner, enclosing

"In returning the documents received with your
"letter No 1821 of the 26th March last, I have the
"honor to state that the claims of Vamonrow and
"Bhaseron Parashram to commutation on
"lands reclaimed for the abolition of cesses dis-
"tinctly said to have been formerly levied at the
"stage of Pruseramangaon in the Nimgaum
"Talooka of the Nugger Collectorate, was rejected

by

by Mr Rose the late claim Commissioner on the grounds of the absence of any sanctioned authorizing the collection of the dues under the Peuh. was Government, and the absence of any documentary proof of the existence of the levy previous to the alienation of the Village.

"Mr Rose's decision is recorded to have been passed under Rule 4 Section III, below quoted of the Rules sanctioned by Government on the 18th June 1868 N° 3846; Page 727 of 1868 6th October 1832 Page 727 of 1868 256 of 1868

"Claims to compensation for loss of Transit
"and town duties or abandonment of the 1st
"and 2nd class are only to be admitted wher-
"ever regular tariffs are distinctly specified
"in Sunnuds or where collections on
"account of these duties were made previous
"to the grants of their estates and the
"whole of the revenue of these estates al-
"though without specification were con-
"ferred upon the grantees. Because the
"right to compensation in such cases rests
"on the question whether such collections
"were authorized by the paramount Govern-
"ment or are encroachments not recog-
"nized by the State but imposed by the
authority

87

Resolution or a Report by the Inam Commissioner No. 2867 dated the 31st December, 1853, on a petition from Ramchunrow and Shaorow [illegible] Moroje Bhowanrungee, Talooka Wurdha in the Ahmednuggur Collectorate

A 1860

Mr Rose's sentence

Rule IV. of Head III. - "Claims to Compensation for loss of Transit- and Town duties, of Claimants of the 1st and 2d Class, are only to be admitted when their right thereto are described specified in Summonds or inhabitation on account of these duties were made pursuant to the grants of their Sanads, and the words of the Summonds or these Sanads allowing the duties without specification were construed in the grant in question. Because the right to Compensation in such cases rests on the question whether such Collections were authorized by the paramount Govt or are encroachments not recognized by the State, but supposed by the Authorities of the Jahgeerdars"

is in conformity to the provisions of the rules passed for their guidance under instructions from the Government of India, and must therefore be upheld. —
